

**Cavalier County Road Supervisor – 256.2161
Cavalier County Emergency Management – 256-3911**

On April 5th the Commissioners for Cavalier County signed a disaster declaration, hoping that we can get some assistance in dealing with the overland flooding and/or damages from the velocity of the water taking out culverts.

I believe all of you are familiar with the protocols, but as a refresher.

Please document your damages on a map with sites marked and numbered. Include approximate cost to fix to previous condition. Take pictures before repair, in case we get a Presidential declaration. Turn the maps into either Terry or myself if he is out of the office.

You may either hang on to the pictures or, turn them in with the maps.

Please keep a copy of all for your township.

Thank you for all that you do.

Sincerely,

Karen Kempert, EM

Terry Johnston, RS
